Boyd and his deputy Sam E. fill quietly left town in search of the vendor and bagged their game in New Shront's barn, less than a mile from town. They arrested and brought before Judge Atchison a man by the name of T. J. Bonz. T. J. had about a gallon of liquor in his possession and the case against him seems to be conclusive. He was released on bond furnished by Dell Downes. It has been an open secret that moonshine whisky was dispensed here regularly by men apparently innocent from arrest, and the whole community is pleased that of them, one has been captured. If reports are true Bonz is not the only one engaged in this illegal traffic and a little vigilance on the part of the town and county authorities may result.

## A bird like this makes a model husband

HER NICE new husband, STEPPED OUT of the house, WHISTLING LIKE A bird, WHICH ALARMED young wife, ESPECIALLY WHEN, SHE FOUND she'd picked THE WRONG package, AND INSTEAD of oatmeal, HAD GIVEN him birdseed, BUT DON'T think from this, THAT EVERY guy, YOU HEAR whistling, HAS NECESSARILY, BEEN ROBBING the canary. OTHER THINGS inspire, THE ALMOST human male, TO BLOW through his lips, AND MAKE shrill noises. A RAISE, for example, OR A day off when, A DOUBLE header is on.

OR AN everyday thing, LIKE A good drag, ON ONE of those smokes, THAT SATISFY, WHICH CERTAINLY are, THE REAL birdseed, FOR MAKING men, TRILL THEIR pipes for joy, SO LADIES, if hubby, GOES AWAY whistling, YOU NEEDN'T worry, ALL'S SWELL.

WHEN you say that Chesterfields "satisfy," you're whistling. You know—the instant you light one—that the tobacco in it is of prime selection, both Turkish and Domestic. And the blend—well, you never tasted such smoothness and full-flavored body! No wonder the "satisfy-blend" is kept secret. It can't be copied.

Did you know about the Chesterfield package of 10?

## HERE IS THE SHINGLE

You find them on the finest 20, 30 and 40 thousand dollar houses as well as the 4, 6, and 8 thousand dollar houses.

They are popular on the 40 thousand dollar houses because there is no more naturally beautiful material to put on a roof than the attractive Indian red or the artistic sage green slate. The low price makes them possible on less costly homes.

And they wear better. Neither wind, nor walking on them, nor fire nor old age, nor the blow of a hammer will cause them to crack. The asphalt in them protects nail-heads from rusting off and shingles coming loose. The slate surface makes them spark-proof. They satisfy insurance and building law requirements. Finally—they stay flat.

## WOULD GO FROM HOUSE TO HOUSE

Tennessee Farmer Wants to Go From House to House and Tell Everybody About Tanlac.

"I were not so lucky with my health as I would go from house to house to tell the people about Tanlac. I am a well man, I tell a friend of mine about it and ordered a bottle for him and he had good results. I can eat anything I want and I don't hurt me, and can sleep like a log. To tell you the truth, I just simply feel like a new man and have more strength and energy than I have had in years. It is simply the grandest medicine in the world. I would like to see all of my friends and get those who are suffering to try it, and I hope you will reach them through this testimonial, which I have gladly given."

Tanlac, the celebrated medicine, which accomplishes such noble results in this man's case, is a wonderful tonic, appetizer and invigorant. It builds up the system, creates a healthy appetite, promotes digestion and assimilation of the food and makes you feel strong, sturdy and well as nature intended. Sold by leading druggists everywhere.—Advertisement.

**Diners Follow the Leader.**  
"People are like sheep," said the cynical writer. "When a dinner is to be ordered for a party of six there is generally one master mind who will select the kind of soup he wants. Almost invariably the others will take the same kind. So it goes down the line. There is no individuality. Yes, I'll admit I usually suggest the more expensive dishes to the master mind. It boosts the check."—New York Sun.

## LAND IN DEMAND

Why Western Canada Can Take Her Pick of Settlers.

Opportunities and Conditions There Appeal to the Most Desirable Possibilities of Country Provided.

While Canada awaits settlers, and is pursuing every legitimate means to secure them, it is realized, as pointed out by Hon. J. A. Calder, minister of immigration and colonization, that selection is necessary, and in order to keep undesirable out of the country legislation is passed that will doubtless have this effect. As pointed out by the minister, the class of settlers which Canada stands most ready to welcome are those who desire:

Opportunity to acquire good farm land, either free or at a cost within their means.

Opportunity to live in a country where children receive free public education and where all children are enabled to start in the battle of life with as nearly as possible, equal advantages.

Opportunity to live in a country where industry applied to the land will produce something more than the bare necessities of life, and will afford within reasonable time comfort and independence.

Opportunity to live in a country where ambition is not handicapped by any creed, birth, or class, but where every citizen has the right to aspire to the highest position in his or her chosen walk in life.

These are the conditions which will appeal to the most desirable people for this or any country, conditions which, to a certain degree, make an automatic selection of the fittest.

Canada possesses farm lands in large areas which may be had free or at a cost within the reach of the settler of limited means. Vast areas are available for settlement within reasonable distances of railways. Land values have in the last quarter of a century received a tremendous impetus, so that any good farm land which can still be secured at a reasonable price is an attraction. Such lands today are probably more attractive to the settler than were the free homesteads of the pioneer era. The country has been tried out; the possibilities have been proved; the trails have been blazed; the foundations have been laid. Railroads, telephones and public roads have been provided; market towns dot the prairies and other agricultural districts; schools, churches, and all the marks of modern conditions of life abound. Records which have been kept for a period of years establish the fact that Western Canada's grain production is greater per acre than that of probably any other new country. It is worthy of note that the production of grain per acre in many of the older countries has increased with the intensified farming methods which the very high cost of land made necessary. This condition does not yet obtain to any extent in Canada, and yet the yield compares favorably with some countries in which the cost of land is far greater than it is in the farming districts of the Dominion. In most cases present owners of Canadian farm land who are not cultivating it themselves are willing to sell at moderate prices and on terms arranged for the convenience of the purchaser, provided the latter is prepared to go into actual operation and bring the land under cultivation and cause it to produce. That is the kind of settler which Canada wants and to whom it extends open arms.—Advertisement.

## PRESIDENT HARDING VISITS CAPITOL

URGES BONUS BILL BE PLACED ON SHELF UNTIL PURSE OF NATION IS FATTER.

Accepts Full Responsibility For Action—Certain Proponents of Veterans' Relief Measure Will Oppose Administration Plan, This Reported.

Washington.—President Harding visited the Capitol unheralded and conferred for more than two hours with his former colleagues on the formation of a legislative program. When it became known that the President was in the Senate wing of the Capitol the Republican side of the aisle became deserted except for Senator Reed Smoot, of Utah, who remained calm and didn't even flicker an eyelash. The President was surrounded by a throng of his old-time legislative colleagues in the Senate dining room, where he passed an hour lunching. Senator James E. Watson, of Indiana, was among those who paroled of the meal.

This happened during the discussion of the McCreary soldier bonus bill and a call of "no quorum" was sounded. Headed by the Republican floor leader, Senator Henry Cabot Lodge, of Massachusetts, the runaways returned, but went away as soon as their names were called.

The President retreated into the Presidential room, situated just off the Senate floor, and one by one conferred with an even dozen of the Senators, among them Frank B. Willis, of Ohio, Senator Allen Pomeroy, of Ohio, Democrat, poked his head into the room and asked, "How do you do?" President and Senator Oscar W. Underwood, of Alabama, the Democratic floor leader, talked for a long time, supposedly about the bonus bill, which Mr. Underwood opposes. He is a close personal friend of Mr. Harding. The result of the conference is said to have been:

1. Indefinite postponement of action on the McCreary or soldier bonus bill by recommitting it to the Senate Finance Committee, from which it was reported with strong recommendations for its passage.

2. Consideration of only the legislation, such as tariff and tax measures, for which the special session purposely was called.

3. A "process of recesses" in the Senate during the summer months while waiting for tariff and tax legislation to come over from the House.

**Officer Made \$14,500.**  
Ottawa.—Testimony was given before a Canadian investigating committee into alleged frauds in foreign exchange in which it was charged the Canadian Government lost several hundred thousand dollars, that a former Ottawa policeman made \$14,500 in this manner and left the country. The Government agreed, when English money fell to pay to its returning soldiers the difference between the allowances they received abroad in English money and what these allowances would mean in Canadian money at the normal rate of exchange.

**Senate Stands Pat.**  
Washington.—Although agreeing to the bulk of the provisions of the \$400,000 naval appropriation bill, the Senate recently by the House in attempting to dispose of differences between the two bodies, the Senate refused to yield on 19 amendments, and sent the measure back to the House with a request for further conference. The amendments on which the Senate declined to recede include provisions for two airplane carriers, aviation stations and increased expenditures for battle ships under construction.

**German Kultur.**  
Leipzig.—Lieut. Gen. Karl Stenger, charged by the French Government with having ordered troops under his command to take no prisoners and kill wounded men during the fighting August, 1914, was acquitted by the German Supreme Court here engaged in the trial of cases against alleged war criminals. Major Bruno Cuestig, tried on a similar charge, received a sentence of two years in prison and was forbidden to wear the German uniform.

**May Restore Sight.**  
Vienna.—Successful eye grafting was described by Dr. Koppányi in a lecture before the Biological Society here. He said that he had transplanted the eye of a blind fish and rats, successfully following the optic nerves so that subjects regained sight. Dr. Koppányi sketched a method by which he said it would be possible to restore partial sight to blinded soldiers if others could be found willing to sacrifice an eye for the purpose.

**Car Strike.**  
Dayton, O.—Dayton's third street car strike in four years was called, in accordance with previously announced plans. Five hundred employees of six lines walked out following a meeting when the matter was put to a vote. The decision to strike almost was unanimous. Alleged failure of the companies to respect the arbitration agreement is given as the principal cause, although the reduction in wages from 62 cents to 45 cents, maximum, figured in the deliberations of the men.

**Three Killed in Crash.**  
Detroit, Mich.—Two men and a woman were killed and a woman was injured seriously when an automobile driven by Charles Butzin, of Dearborn, crashed into the engine of the Pere Marquette line's Toledo express at the West Warren avenue crossing. The dead were: Charles Butzin, 38 years old, Artillery engineer; Mrs. Rachel Sharpe, 25 years old, 5850 West Jefferson; and an injured woman, Miss Lillian Herrman, 22 years old, 4485 Cicotta avenue.

**Money Flows Into Treasury.**  
Washington.—Total tax receipts by the Government for the fiscal year ending June 30 were \$4,666,666,248, of which \$3,212,713,489 was derived from income and profit taxes, the Bureau of Internal Revenue announced. The statement was based on Collectors' telegrams of June 30, it was said, and it was explained it might be necessary to make slight changes. The statement allowed the total of the collected New York with \$1,124,351,706, paid more than one fourth and led all states.

**Auto Hits Man in Bed.**  
Delaware.—A truck by an automobile while asleep in his bed in his home here provided Levi Naeckel the thrill of his life. Just before daylight Naeckel became conscious of the fact that his bed was being pushed rapidly across the room. Opening his eyes and turning over, he found two glaring headlights confronting him. Naeckel's home, one side of which was crushed in by the machine, is located just off an abrupt right angle on the Ashley road. The car was driven by Burton Windsor, of Mt. Gilead.

**Monarch's Mummy Finally at Rest.**  
The mummy of the celebrated Egyptian king, Ramses II, reposes in the Egyptian museum in Cairo. The mummy was and was subsequently concealed from grave robbers in the shaft at Deir-el-Behri, where it was found in 1881, and later removed to the museum mentioned.

**Every citizen of ancient Athens of twenty years of age was entitled to vote.**

**Pease Design Proposed.**  
Washington.—Now that the United States is at peace it is going to be commemorated. Representative Albert H. Vestal, of Indiana, chairman of the House Committee on Coinage, Weights and Measures, has been waiting since Congress convened to report on a bill authorizing new coinage. With the signing of the peace resolution by President Harding, Mr. Vestal reported his bill out favorably. It will change the design of all new dollars coined, appropriate to the commemoration.

**Train Strikes Auto.**  
Warren, O.—Two persons were killed instantly and five others injured seriously, two perhaps fatally, when an automobile was struck by an Erie railroad train at Ray's Crossing, near Courtland.

**Tax May Be Taxed.**  
Washington.—William Howard Taft, as Chief Justice of the United States, probably will pay a tax on his income of \$15,000. And he will be the only member of the highest tribunal in the land who will pay. Under a recent decision of the Court the Government cannot compel Federal Judges and Justices of the Court to pay income taxes if they were appointed before enactment of the income tax law. It was held that the tax applies to their salary while in office in violation of the provisions of the constitution.

**Report To Be Offered.**  
London.—David Lloyd George, Prime Minister, stated in the House of Commons that he was fairly hopeful of being in a position to make a statement concerning the Anglo-Japanese treaty soon. He added, however, that such a statement would depend on the results returned from the United States and China. Premature declaration, Mr. Lloyd George asserted, would interfere with the success of the negotiations now in progress.

**New Sultan Demanded.**  
Athens.—The Turkish National Government in Ankara, according to advices from Constantinople, has demanded that Sultan Mohammed VI. abdicate. The latter has replied he was ready to abdicate in favor of any member of the imperial family, with the exception of Prince Abdul Medjid, the legal heir, who belongs to the Nationalist party, the advocates add.

**Trotsky Placed in Prison.**  
Paris.—Reports have reached here from quarters that demand notice to the effect Leon Trotsky, Russian Soviet Minister of War, and Marine, has been imprisoned by Nikolai Lenin, the Soviet Premier, following the Congress of the Third Internationale. No confirmation of these reports from official or other sources, however, is available. This Congress began sessions in Moscow a week ago, and it was announced that more than 2,000 delegates from all over the world were present.

**Robbed of \$200,000.**  
Philadelphia.—Joseph Hancall, New York jewelry salesman, reported to the police on arrival here that a case containing diamonds and other jewels valued at \$200,000 had been stolen from him on a train from New York. Hancall said he had the case beside him at his feet, and that he missed it soon after leaving Trenton.

**Epidemic Traced To Milk.**  
Lexington, Ky.—Eighty-five per cent of typhoid fever cases in this city can be traced to a milk supply, according to Dr. Mark V. Ziegler, of Washington, epidemiologist, who investigated the cause of the localized epidemic. Dr. Ziegler does not admit to say where the milk was contaminated before it left the dairy, but he announced that the supply had been cut off and that the peak of the epidemic had been reached.

## OBJECTS TO TARIFF LAW

Americans Can Have All Facts That Are Voted—French Say of Levies in List.

Paris.—The French Government forwarded to J. Jusserand, French Ambassador in Washington, for transmission to the State Department there, a protest of the French Chamber of Commerce against the provision of the new American tariff law calling for inspection of the books of French exporters by American agents for the purpose of determining ad valorem duties to be collected by the United States. French exporters are said to be disgusted greatly over this feature of the tariff measure, and declare that under no conditions will inspection be tolerated.

It is pointed out that such a privilege as the American law requests is not accorded even to the French Government except in unusual instances. The French in their protest say they are willing to give to Treasury Department agents full statements upon which the ad valorem tax can be based.

At the offices of the American Commercial Attaché it was explained that the Treasury Department agents at Paris, had used "no investigation of exporters' costs of production within the past year, and that the ad valorem duties collected at New York had been based upon these reports, which consisted largely of voluntary statements by the exporters. The American chamber of Commerce in Paris, on the other hand, stated the French protest at a meeting conducted in the afternoon, and the matter was referred to the Special Tax Committee.

The opinion was expressed, however, that the law probably would have to be modified, inasmuch as it would be virtually impossible to induce the French exporters to consent to inspection of their books. It also was said that there was a feeling among American business men in France that the provision would be found to be impractical, but that a compromise might be reached by having the French open their books to public accountants.
